THE ◆ NORBURY ◆ SANATORIUM

Established 1901—Incorporated—Licensed

Jacksonville - - Illinois

Frank Parsons Norbury, A.M., M.D., F.A.C.P., Medical Director **Albert H. Dollear, B.S., M.D., F.A.C.P., Superintendent**
Frank Garm Norbury, A.M., M.D., F.A.C.P.—Associate Physicians—Samuel N. Clark, M.D.

THE NORBURY SANATORIUM was established in 1901, in answer to a demand for private hospital care for nervous and mental cases under more individual supervision and privacy, and with more homelike surroundings than is usual in other available institutions, public or private.

Beginning in a small way, with limited facilities, this Sanatorium has won for itself an established place, and with the growth of confidence in its service it has enlarged its facilities to meet the needs of its increasing patronage.

The buildings now occupied for the care of patients are four, of which three (in one group) are located on South Diamond Street, and care for fifty patients. One of the Diamond Street group (for male patients) has recently been remodeled. The architecture is of Southern Colonial design with a wing added of two units of eleven rooms each. This is fire proof construction, equipped with the most modern hospital conveniences, private baths, sun-parlors, etc., designed to meet the approved indications for treatment and care of mental and nervous diseases. Hydrotherapy, physiotherapy, occupational therapy, etc., being completely provided for with ample room and modern apparatus. Detached heating plant. The department for women, at 1631 Mound Avenue, is one of modern structure, of four units. The rooms are large and ensuite, with private bath facilities. Plenty of sunlight is afforded by the beautiful location and unique design of the wings. Ample and modern facilities for diagnostic and treatment purposes are provided in both departments for men and women. The grounds have been laid out by expert landscape directors. The department for women occupies a beautiful site, on the crest of a moraine, west of Jacksonville, facing north and overlooking, both north and south, farm lands affording never-failing, restful pastoral scenes. The total accommodations provide room for one hundred and twenty-five patients.

DEPARTMENT OF REGISTRATION AND EDUCATION

Smith-Hurd Illinois Revised Statutes, 1927, Chapter 127

Sec. 58. RIGHTS, POWERS AND DUTIES OF DEPARTMENT. The Department of Registration and Education shall have power:

. . . .

6. To exercise the rights, powers and duties vested by law in the State Board of Health relating to the practice of medicine, or any of the branches thereof, or midwifery;

. . . .

Sec. 60. ADDITIONAL POWERS CONFERRED IN ADMINISTRATION OF LAWS REGULATING PROFESSIONS, TRADES AND OCCUPATIONS—BOARD OF EXAMINERS. The Department of Registration and Education shall, wherever the several laws regulating professions, trades and occupations which are devolved upon the Department for administration so require, exercise, in its name, but subject to the provisions of this Act, the following powers:

1. Conduct examinations to ascertain the qualifications and fitness of applicants to exercise the profession, trade or occupation for which an examination is held; and pass upon the qualifications of applicants for reciprocal licenses, certificates and authorities;

2. Prescribe rules and regulations for a fair and wholly impartial method of examination of candidates to exercise the respective professions, trades or occupations;

3. Prescribe rules and regulations defining, for the respective professions, trades and occupations, what shall constitute a school, college or university, or department of a university, or other institutions, reputable and in good standing and to determine the reputability and good standing of a school, college or university, or department of a university, or other institution, reputable and in good standing by reference to a compliance with such rules and regulations: Provided, that no school, college or university, or department of a university or other institution that refuses admittance to applicants solely on account of race, color or creed shall be considered reputable and in good standing;

4. Adopt rules providing for and establishing a uniform and reasonable standard of maintenance, instruction and training to be observed by all schools for nurses which are to be deemed reputable and in good standing and to determine the reputability and good standing of such schools for nurses by reference to compliance with such rules and regulations;

5. Establish a standard of preliminary education deemed requisite to admission to a school, college or university, and to require satisfactory proof of the enforcement of such standard by schools, colleges and universities;

6. Conduct hearings on proceedings to revoke or refuse renewal of licenses, certificates or authorities of persons exercising the respective professions, trades or occupations, and to revoke or refuse to renew such licenses, certificates or authorities;

7. Formulate rules and regulations when required in any Act to be administered.

None of the above enumerated functions and duties shall be exercised by the Department of Registration and Education, except upon the action and report in writing of persons designated from time to time by the Director of Registration and Education to take such action and to make such report, for the respective professions, trades and occupations as follows:

. . . .

For the medical practitioners, and midwives, five persons, all of whom shall be reputable physicians licensed to practice medicine and surgery in this State, no one of whom shall be an officer, trustee, instructor or stockholder or otherwise interested, directly or indirectly, in any medical college or medical institution. For the purpose of preparing questions and rating papers on practice peculiar to any school, graduates of which may be candidates for registration or license, the director may designate additional examiners whenever occasion may require;

. . . .

The action or report in writing of a majority of the persons designated for any given trade, occupation or profession, shall be sufficient authority upon which the Director of Registration and Education may act.

In making the designation of persons to act for the several professions, trades and occupations the director shall give due consideration to recommendations by members of the respective professions, trades and occupations and by organizations therein.

Whenever the director is satisfied that substantial justice (sic) has not been done either in an examination or in the revocation of or refusal to renew a license, certificate or authority, he may order reexaminations or rehearings by the same or other examiners.

. . . .

Sec. 60a. EXAMINING BOARDS. None of the functions and duties enumerated in Section 60 of this Act shall be exercised by the Department of Registration and Education except upon the action and report in writing of a committee which shall be composed of persons designated from time to time by the Director of Registration and Education to take such action and to make such report, for the respective professions, trades and occupations as follows:

. . . .

For the medical practitioners, and midwives, five persons, all of whom shall be reputable physicians licensed to practice medicine and surgery in this State, no one of whom shall be an officer, trustee, instructor or stockholder or otherwise interested, directly or indirectly, in any medical college or medical institution. For the purpose of preparing questions and rating papers on practice peculiar to any school, graduates of which may be candidates for registration or license, the director may designate additional examiners whenever occasion may require.

. . . .

The action or report in writing of a majority of the committee designated for any given trade, occupation or profession, shall be sufficient authority upon which the director of registration and education may act.

In making the designation of persons to act for the several professions, trade, and occupations, the director shall give due consideration to recommendations by members of the respective professions, trades and occupations and by organizations therein.

Whenever the director is satisfied that substantial justice has not been done either in an examination or in the revocation of or refusal to renew a license, certificate or authority, he may order reexaminations or rehearings by the same or other examiners.

Sec. 16 (a). **DEPARTMENT MAY WITHHOLD OR REVOKE LICENSE:** The Department may revoke or suspend the license or certificate of any person issued under this Act, or issued under any other Act in this State, to practice medicine, or to practice the treatment of human ailments in any manner, or to practice midwifery, or may refuse to grant a license under this Act, and may cause any license so revoked or suspended to be marked cancelled on the records of any County Clerk upon any of the following grounds:

10. Professional connection or association with, or lending one's name to another for the illegal practice by another of the treatment of human ailments as a business, or professional connection or association with any person, firm, or corporation holding himself, themselves, or itself out in any manner contrary to this Act.

Sec. 16 (b). **HEARING BEFORE AND AFTER REVOCATION OF LICENSE:** (a) No license or certificate shall be suspended or revoked upon any of said grounds unless the holder thereof, or the applicant therefor, shall have been summoned to appear before the department by a citation signed by the director, and unless the person so summoned shall have been given a hearing before the department. No citation shall be issued except upon a sworn complaint, filed with the department, setting forth the particular act or acts charged against the person to be cited. Upon the filing of such sworn complaint if it sets forth grounds for which a license may be suspended or revoked under section sixteen of this Act, the director shall forthwith issue a citation containing a copy of it, and notifying such person of the time and place when and where a hearing of such charges shall be had, and commanding him to file his written answer thereto under oath within twenty days after the service on him of such citation, and notifying him that if he shall fail to file such answer default will be taken against him and his license or certificate may be suspended or revoked, as the case may be. In case such person shall fail to file his answer, having received such citation, the license of such person may in the discretion of the department be suspended or revoked, as the case may be, without a hearing, if the act or acts charged in such citation shall constitute sufficient grounds for such action under this Act. Such citation and any notice in such proceedings thereafter may be served by registered mail. The hearing may be had at a date not less than thirty days after the issue of such citation. At the hearing such person shall be accorded ample opportunity to present to the department in his defense, in person or by counsel, such statements, testimony, evidence and argument as he may desire to bring to its attention. The department, at its expense, shall provide a stenographer to take down the testimony and preserve a record of all proceedings at the hearing, and the department shall furnish a transcript of such testimony and proceedings to any person interested in such hearing upon payment therefor of five cents per one hundred words for the original and three cents per one hundred words for each copy thereof. The citation, answer and all other documents in the nature of pleadings filed in the proceedings, and the transcript of testimony shall be the record thereof. Upon a showing of reasonable grounds the director may extend the time for filing such answer, may continue such hearing from time to time, and may within thirty days after any order of suspension or revocation of any license, upon the written recommendation of the committee of physicians of the department, set aside such order. The department may at any time after such suspension or revocation of any license restore it to the person affected without examination, upon the written recommendation of such committee.

(b) In all cases where the department suspends or revokes a license on the foregoing grounds, the Circuit Court of the county where the holder of such license resides or practices, and the Superior Court of Cook County if the holder of such license resides or practices there shall have power to review such suspension or revocation by writ of certiorari to the department. Such suit by writ of certiorari shall be commenced within twenty days of the receipt of the notice of the decision of the department by the person whose license shall be so suspended or revoked. In cases where such license has been suspended or revoked such court may, upon the filing of such suit by writ of certiorari, upon a hearing and proper showing of probable error in such action of the department, suspend the operation of such suspension or revocation during the pendency of such suit. The department shall not be required to certify the record of its proceedings to such court unless the person commencing the proceedings shall pay to the department the sum of 5 cents per 100 words of testimony taken before the department and 3 cents per 100 words of all other matters contained in said record. Exhibits shall be certified without cost.

(c) Judgments and orders of such court under this section, upon the application of the department or of the person who shall be affected, shall be reviewed only by the Supreme Court and only upon writ of error, which the Supreme Court, in its discretion, may order to issue only upon showing of probable error if applied for not later than the second day of the first term of the Supreme Court following the rendition of the judgment or order sought to be reviewed, but if the first day of said term is less than thirty days from the rendition of said judgment or order then application for said writ of error may be made not later than the second day of the second term following rendition thereof, but not otherwise. The writ of error so issued shall operate as a supersedeas.

Sec. 16 (c). **POWERS OF DEPARTMENT:** The Department shall have the power to administer oaths, subpoena and examine witnesses, and issue subpoenas duces tecum requiring the production of such books, papers, records and documents as may be evidence of any matter under inquiry before the department, in the same manner as witnesses are subpoenaed in equity cases in the Circuit Court. The department may upon its own initiative, and shall upon the written request of any person cited to appear before it in accordance with the provisions of section 16 of this Act, issue subpoenas for the attendance of such witnesses and the production of such books, papers, records and documents as it shall require in the transaction of its business, or as shall be designated in such request, but the person applying for such subpoenas shall advance the witness fees and fees for service of subpoenas provided for in suits pending in the Circuit Court. Service of such subpoenas shall be made by any sheriff or constable or other person in the same manner as in cases in such court. In case any person so served shall wilfully neglect or refuse to obey any such subpoena, or to testify, the director may at once file a petition in the Circuit Court of the county in which such hearing is to be heard, or has been attempted to be heard, or in the Circuit or Superior Court in Cook County, setting forth the facts of such wilful refusal or neglect, and accompanying said petition with a copy of the citation, and the answer, if one has been filed, together with a copy of the subpoena and the return of service thereon, and may apply for an order of court requiring such person to attend and testify, or produce books and papers, before the department, at a specific time and place. Any Circuit Court of the State or the Superior Court of Cook County, or any judge thereof, either in term time or vacation, upon such showing shall within proper judicial discretion order such person to appear and testify, or produce such books or papers, before the department at a time and place to be fixed by the court or judge. If such person shall wilfully fail or refuse to obey such order of the court or judge, without lawful excuse, the court shall punish him by fine or by imprisonment in the county jail, or by both such fine and imprisonment, as the nature of the case may require and may be lawful in cases of contempt of court. Every witness attending before the department at any hearing under this Act shall be entitled only to such compensation for his time and attendance and payment of traveling expenses as is or shall be allowed by law to witnesses attending such courts, which shall be paid by the person requiring, or by the department if requiring on its own initiative, such testimony or evidence. The department upon its own motion, or upon application of any person interested in any such hearing, may issue a dedimus potestatem directed to any commissioner, notary public, justice of the peace, or to any other officer authorized by law to administer oaths, to take depositions of persons whose testimony may be deemed by the department necessary in any such hearing. Such dedimus potestatem may issue to any part of Illinois, or to any other state, or any territory of the United States or to any foreign country. The department shall have the power to adopt reasonable rules to govern the issue of a dedimus potestatem, the taking of such depositions and the payment of all expenses thereof.

Sec. 16 (f). **WHEN ACT DOES NOT APPLY:** Nothing in this Act shall be construed to prohibit any person from using any antiseptic prescribed by the Department of Public Health of the State for the prevention of the spread of communicable diseases, nor from using antidotes, or rendering any other service, in any case of emergency if without charge or compensation.

Sec. 16 (g). **LICENSES ISSUED PREVIOUS TO ACT:** All licenses and certificates heretofore legally issued by authority of law in this State permitting the holder thereof to practice medicine, or to treat human ailments in any other manner, or to practice midwifery, and valid and in full force and effect on the taking effect of this Act, shall have the same force and effect, and be subject to the same authority of the department to revoke or suspend them as licenses issued under this Act.

Sec. 16 (h). **CONSTITUTIONALITY; VALIDITY:** If any section, subdivision, sentence or clause of this Act shall be held to be invalid or unconstitutional, such decision shall not affect the remaining parts of this Act.

Sec. 16 (i). **MISREPRESENTATION; PENALTY:** If any person shall hold himself out to the public as being engaged in the diagnosis or treatment of ailments of human beings; or shall suggest, recommend or prescribe any form of treatment for the paliation, relief or cure of any physical or mental ailment of any person with the intention of receiving therefor, either directly or indirectly, any fee, gift, or compensation whatsoever; or shall diagnosticate or attempt to diagnosticate, operate upon, profess to heal, prescribe for, or otherwise treat any ailment, or supposed ailment, of another; or shall maintain an office for examination or treatment of persons afflicted or alleged or supposed to be afflicted by any ailment; or shall attach the title Doctor, Physician, Surgeon, M. MEDICAL PRACTICE ACT OF INDIANA

Burns'Annotated Indiana Statutes, 1914, Chapter 101; as Amended Laws of 1923, Chapter 71; Laws of 1927, Chapter 248.

Section 8400. LICENSE REQUIRED: That it shall hereafter be unlawful for any person to practice medicine, surgery or obstetrics in this state without first obtaining a license so to do, as hereinafter provided.

Sec. 8401. EXAMINATION; APPLICATION; FEES; CERTIFICATE: After this law goes into effect any person desiring to begin the practice of medicine, surgery or obstetrics in this state shall procure from the State Board of Medical Registration and Examination a certificate that such person is entitled to a license to practice medicine, surgery and obstetrics in the state of Indiana; and in order to procure such certificate the applicant shall submit to the State Board of Medical Registration and Examination his diploma, with an affidavit setting forth the time and number of terms, duration of each term applicant was required to be in attendance at said school in order to complete said course of study, and that the affiant is the person to whom such diploma was issued. Such application shall be accompanied by the affidavit of two freeholders resident in the same county in which the applicant resides, stating that the applicant is the person named in the accompanying diploma and application for a certificate. All diplomas received by the board shall be returned to the person owning the same, and for failure to return any diploma to its lawful owner within a reasonable time the secretary of said board shall be liable on his bond for damages in the sum of twenty-five dollars ($25). Such applicant shall pay to said board the sum of ten dollars ($10) at the time of making such application. All persons who were practicing medicine, surgery and obstetrics in the state of Indiana on March 8, 1897, and have not complied with the provisions of the law, and desiring to continue the same, shall, on or before July 11, 1899, obtain a certificate that they are entitled to do so by presenting to the State Board of Medical Registration and Examination the license possessed by them at the time of the passage of this law, together with an affidavit that they are the legal possessors of the same, and the persons mentioned therein, and such applicant shall pay to the board the sum of one dollar ($1) at the time of making such application. The board shall thereupon issue to such applicant a certificate which, when presented to the county clerk of the proper county, shall entitle the holder to a license to practice medicine, surgery and obstetrics in the state of Indiana. In the event an applicant for a certificate from the State Board of Medical Registration and Examination shall present a diploma from a medical college which is not recognized as maintaining a sufficiently high grade or standard of medical education as defined and fixed in the records of the board, the applicant shall have the privilege of being examined as to his qualifications to practice medicine, surgery and obstetrics in such manner as the board shall provide, and if he shall pass an examination satisfactory to the board he shall receive a certificate the same as if he had presented a satisfactory diploma and other evidences of qualifications for the practice of medicine. But if he should fail to pass such examination he shall be permitted to submit to another examination within twelve months from the time of the first examination. He shall pay to the State Board of Medical Registration and Examination the sum of twenty-five dollars ($25); provided, however, that payment of said sum of twenty-five dollars ($25) shall entitle him to a reexamination in case of failure at the first or any subsequent examination. And provided further, that if such applicant shall fail to pass the examination prescribed by such Board of Medical Registration and Examination he shall have the right to an appeal to the circuit or superior court of the proper county, requiring such board to show cause why such applicant should not be permitted to practice medicine, surgery or obstetrics in the state of Indiana, on the applicant giving a good and satisfactory bond to be approved by the court, to secure all costs of suit should the appeal be determined against him. Upon the receipt of the certificate by the applicant from the State Board of Medical Registration and Examination the applicant shall, upon the presentation thereof to the clerk of the county in which he resided, receive from the county clerk a license to practice medicine, surgery and obstetrics within the state of Indiana. The person receiving such license shall pay to the county clerk (50) cents as his fee for issuing and recording such license as hereinafter provided. In case of change of residence from one county to another within this state the holder of a physician's license shall obtain a new license in the county where he proposes to reside by filing with the county clerk the license obtained by him in the county in which he last resided in the same manner as provided for on the presentation of his certificate from the State Board of Medical Registration and Examination, and the clerk shall issue him a new license.

Sec. 8402. FORM OF CERTIFICATE; RECORD: It shall be the duty of the clerk of the county in which an applicant resides to issue to the person presenting such certificate, as hereinbefore provided for, a license under his official seal in the following form:

> State of Indiana, County of..........ss.:
> I, ...Clerk of the Circuit Court of....................County, in the State of Indiana, do hereby certify that ....has complied with the laws of the State of Indiana relating to the practice of medicine, surgery and obstetrics in the county and state aforesaid.
> Witness my hand seal of said court this................day of..........19...
> ....Clerk.

The county clerk shall enter of record the name, age, place of birth, address, school or system of medicine to which said applicant belongs, and the person so registering shall subscribe to and verify by oath before such clerk an affidavit concerning such facts, which, if wilfully false, shall subject the affiant to conviction for perjury. The county clerk shall furnish annually, on the first day of January, to the State Board of Medical Registration and Examination, on blanks furnished by said board, a duplicate list of all certificates received and licenses issued by him during the preceding year, and shall include therein the date of issue of said license, and the name, age and residence of the person receiving the same.

Sec. 8403. APPOINTMENT OF BOARD: Within thirty days after this law goes into effect it shall be the duty of the governor of the state of Indiana to appoint a State Board of Medical Registration and Examination, composed of five members, who shall serve, two for one year, one for two years, one for three years and one for four years, and their successors for a term of four years each. No school or system of medicine shall have a majority representation on such board. Said board shall be nonpartisan, and not more than three shall be members of any one political party. The governor shall select members of said Board of Medical Registration and Examination from reputable physicians in this state who are graduates of any college of medicine of good repute; provided, that no professor or teacher in a medical college shall be appointed as a member of such board; provided, further, that each of the four schools or systems of medicine having the largest numerical representation in the state shall have at least one representative on said board. Should a vacancy occur in said board by death, resignation, removal or otherwise, then it shall be the duty of the governor to fill the vacancy from the school or system entitled to representation by virtue of such vacancy. The governor shall have power to remove any member of said board for incompetency, gross immorality, for any abuse of his official power, or for other good cause, and may fill any vacancy thus occasioned by appointment. Any person appointed to fill any vacancy on such board, whether occasioned by death, resignation, removal or otherwise, shall hold for the unexpired term of the member whose place he is appointed to fill.

Sec. 8404. ENLARGEMENT OF BOARD: That within sixty days after this law goes into effect it shall be the duty of the governor to appoint an additional member of the State Board of Medical Registration and Examination, which board shall thereafter consist of six members, each of whom shall serve as heretofore for a term of office of four years, and until his successor shall have been appointed and qualified. The additional member so appointed shall be a reputable practicing physician and a graduate of a reputable school or college of the system by which he practices, and shall belong to some school or system of practice other than those which are now represented upon said board, and his successor shall in the future always be of some school different from that of the remaining members of the board; provided, that any osteopathist now practicing in and a resident of the state of Indiana and holding a diploma from a reputable college of osteopathy, as determined by the State Board of Medical Registration and Examination, shall be eligible to an examination on proper application to the said board, and should he pass this examination, that he shall be granted a certificate for a license forthwith to practice osteopathy in the state of Indiana.

Sec. 8405. MEETINGS; REGULATIONS; TEMPORARY PERMITS; REVOCATION: It shall be the duty of the members of the State Board of Medical Registration and Examination to meet in the city of Indianapolis within thirty days after their appointment and organize by the election of a president, secretary and treasurer, who shall serve until the second Tuesday in January following, and their successors shall be elected on the second Tuesday in January annually thereafter. The said board shall hold regular meetings on the second Tuesday in January and July of each year and as often in addition as may be necessary for the transaction of such business as may properly come before it under the provisions of this Act, and shall have power to make all necessary rules and regulations for the transaction of its business.

For their services the members shall receive the sum of six dollars ($6) per day and their traveling expenses necessarily incurred in the attendance on the business of said board. It shall be the duty of the secretary of said board to keep a record of all applications for certificates, and such records shall contain all the facts set forth in such application, including the action of the board thereon, and shall execute all orders of said board, and the secretary shall have for such service the sum of two hundred and fifty dollars ($250) per annum, to be paid from the funds of said board, and said board may employ a clerk and fix his salary at not more than five hundred dollars ($500) per annum.

It shall be the duty of the treasurer of said board to pay quarterly all moneys received by the board to the treasurer of state, which moneys shall be credited to a separate and permanent fund for medical registration and examination, which is hereby created. All moneys so paid to the treasurer of state shall remain and be a separate and permanent fund for the maintenance of the said Board of Registration and Examination. The said board shall, by its president and secretary, from time to time, certify to the auditor of state the necessary expenses incurred by the said board, including the salaries and per diem of the members, and the auditor shall issue his warrant for the same, which shall be paid out of the fund so established for the maintenance of the said board; provided, that no order shall be drawn by any state official on any other fund than the above named fund for any salaries of the board incident to the administration of this Act.

The treasurer and secretary of said board shall each give bond in the sum of five thousand dollars ($5,000), with sureties to be approved by the governor, which bonds shall be filed with the auditor of state. The members of the State Board of Medical Registration and Examination are authorized to administer oaths in matters relating to the discharge of their official duties. The State Board of Medical Registration and Examination is charged with the duty of enforcing this Act, and it shall be the duty of the prosecuting attorney, on the complaint of the board, to prosecute any violation of this Act.

It shall also be the duty of the grand jury of the proper county to investigate all violations of this Act and return indictments therefor in proper cases, and it shall be the duty of the prosecuting attorney to prosecute violations of this Act by information whenever a proper affidavit is filed by any one, as in other cases of violations of the law; or to prosecute offenders before the justice of the peace in proper cases.

The State Board of Medical Registration and Examination shall, from time to time, establish and record in a record kept by them for that purpose a schedule of the minimum requirements which must be complied with by applicants for examination for license to practice medicine, surgery and obstetrics before they shall be entitled to receive such license. The said board shall also, in like manner, establish and cause to be recorded in such record a schedule of the minimum requirements and rules for the recognition of medical colleges, so as to keep these requirements up to the average standard of medical education in other states. After the year 1897 no change shall be made in such schedules of requirements in any year after the month of January of such year, nor shall any change be made to have any retroactive effect, or that shall affect students theretofore matriculated. Such record shall be at times open to examination by the public, and the said schedule of requirements, after they have been established and recorded, and all changes made therein, shall be printed in circular form and mailed to all medical colleges in the state, and shall also be furnished to any person upon application. Said board shall not, in the establishment of the aforesaid schedule of requirements, discriminate for or against any school or system of medicine, nor shall it prescribe what system or systems or schools of medicine shall be taught in any of the colleges, universities or other educational institutions of the state.

It shall have the power to make and establish all necessary rules and regulations for the reciprocal recognition of certificates issued by other states, and to prevent unjust and arbitrary exclusions by other states of graduates in medicine from this state who have fulfilled its requirements. When an application for a certificate is made and a diploma submitted, as herein provided, it shall be the duty of the State Board of Medical Registration and Examination to determine, upon the evidence presented, whether such diploma rightfully belongs to and was issued to the person making application for a certificate, and whether the medical college that issued the diploma maintains a standard of medical education conforming to that fixed by the State Board of Medical Registration and Examination, and whether the application otherwise complies with the rules of the board.

If these facts are shown by competent evidence it shall be the duty of the State Board of Medical Registration and Examination to issue a certificate, signed by its president and secretary, and under its official seal, stating that the person applying for such certificate and possessing such diploma is entitled to a license to practice medicine, surgery and obstetrics in the state of Indiana; provided, said application shall be filed prior to Jan. 1, 1905; and provided, further, said applicant shall have, prior to Jan. 1, 1901, matriculated in a reputable medical college in Indiana, maintaining a standard of medical education conforming to that fixed by said board, and shall have graduated from said college and received his diploma therefrom prior to Jan. 1, 1905. Except as last above provided, no certificate shall be issued to any person whomsoever until he shall have satisfied the said board that he has graduated at a reputable medical college as in this section set forth, maintaining a standard of medical education as above prescribed, and shall have passed before said board a satisfactory examination as to his qualifications to practice medicine, surgery and obstetrics. Such examination shall be had upon payment of the same fees and on the same terms and conditions as are provided in Section 1 of said Act, approved March 8, 1897, but the applicant shall have the right to designate, in writing, at the time he files his application, the member of the board who shall conduct his first examination in materia medica, therapeutics, theory and practice of medicine, surgery, obstetrics and gynecology.

The board at its discretion may authorize the secretary to issue a temporary permit to an applicant for the interim from date of application until the next regular meeting of the board. The State Board of Medical Registration and Examination shall have the right to review the evidence upon which a license has been obtained, and if it shall be found that a license has been obtained by fraud or misrepresentation the board may revoke such license. The board [may] refuse to grant a certificate to any person guilty of felony or gross immorality, or addicted to the use of liquor or drug habit to such a degree as to render him unfit to practice medicine or surgery.

If any person holding a license under the provisions of this Act shall be guilty of any of the above enumerated acts or shall have procured a certificate or license by fraud or misrepresentation, said board may, after notice and hearing, revoke any license which has heretofore been or may hereafter be issued to him, together with the certificate on which such license has been or may be issued.

A specific written charge, verified by affidavit, must be presented to the board, making definite and specific charges of such facts against the holder of such license. The board shall thereupon fix a time and place for the hearing of such charges, at which the person charged may appear and defend against the same. A copy of such charges, together with a notice of the time and place fixed for the hearing, shall be served on the person so charged at least twenty days before the time set for the hearing of the same. If, after such hearing, the board revokes such certificate and license, such order shall be by said board entered on its record. A copy of such order of revocation, certified by the secretary of such board, shall be by it at once delivered to the clerk of the circuit court of the county in which such license was issued, and such clerk shall record the same on the margin of the record of such license. If the board shall refuse to grant a certificate for any of the reasons above stated it shall enter such refusal on its record, together with a statement of the grounds for such refusal. An appeal may be taken from the action of the board to the circuit or superior court of the county in which such license was issued in case of revocation, and to the county where the applicant lives in case of refusal of a certificate upon the licensee or applicant filing with the clerk of such court, within thirty days from the entering of such order of revocation or refusal by said board, a good and sufficient bond in the sum of two hundred dollars ($200), to be approved by said clerk, to secure the payment of costs of such appeal, should the appeal be determined against him. It shall thereupon be the duty of such clerk to notify the said board of the filing of such bond, and said board shall thereupon forward to said clerk the charges, together with a copy of the order of revocation, where there has been a revocation, or the application for a certificate and a copy or the order of refusal where there has been a refusal to grant a certificate. The clerk of said court shall thereupon docket the same as a cause pending in said court. Said verified charges shall be treated as a complaint. The accused may plead to said charges and issues may be formed thereon as in any civil case, and the same shall thereupon be tried by the judge of the circuit court. It shall be the duty of the prosecuting attorney of the circuit to which said county belongs to appear in such case and represent the board. The only finding and judgment in such cases shall be "Guilty" or "Not Guilty," the same to be rendered separately as to each of the charges. If the finding and judgment of the court be "Not guilty" as to each of said charges, the same shall be by the clerk of said court certified to said board, and it shall thereupon make an order setting aside its order of revocation, and forward to the clerk of said court a certified copy thereof, which shall be entered upon the margin of the record of said license. If judgment of "Guilty" of any of said charges be awarded in said case, the cost of such proceedings shall be recovered of the accused and a fee of ten dollars ($10) shall be taxed therein in favor of the prosecuting attorney, and the order of revocation made by said board shall be and remain in effect. During the pendency of such appeal the accused shall not be entitled to practice by virtue of such license. Where the appeal is from a refusal to grant a certificate the same shall be heard upon the application and certified copy of the order of refusal without any other issues; the same to be tried by the judge of said court, who shall, upon his finding, enter a judgment that the license shall or shall not be issued as the facts may require, and upon such order the clerk of such court shall issue the proper license showing therein the authority by which it is issued, and shall report the same to the state board. The prosecuting attorney shall represent the board in such appeal, and if the court shall refuse the license judgment shall be entered against the applicant for costs, including ten dollars ($10) fee for the prosecuting attorney. Appeals from the judgment of said court may be prosecuted to the supreme court as in other civil cases, either by said board in its own name or by the applicant or holder of such license or certificate, where the judgment may be against him. No fees other than the fees of its own witnesses shall be taxed against said board in any event. Where the applicant shall appeal from a refusal to grant a certificate the cause shall be docketed in the name of the applicant against the State Board of Medical Registration and Examination. Where the license or certificate shall have been revoked the cause shall be entitled the State Board of Medical Registration and Examination against A. B. (the holder of the license).

Sec. 8405 (a). **RESTORATION OF LICENSE:** That in all cases heretofore or hereafter where the State Board of (Medical) Registration and Examination has revoked the license of a physician or surgeon for any of the causes mentioned in section five of "An Act Regulating the Practice of Medicine, Surgery and Obstetrics," providing for the issuance of licenses to practice, providing for the appointment of a State Board of Medical Registration and Examination, and defining their duties, defining certain misdemeanors and providing penalties, and repealing all laws in conflict therewith, and certain acts therein specified, approved March 8, 1897, Acts of 1897, page 255, such State Board of Medical Registration and Examination upon a satisfactory showing by such physician or surgeon whose license had been revoked, shall have the power to restore such physician to his rights under his former license and permit him to practice medicine, surgery and obstetrics, as though said license had not been revoked.

Sec. 8406. ANNUAL REPORTS: Three thousand copies of the annual report of the board to the governor shall be printed in the same manner as the report of the State Board of Health; and the printing and stationery of the board shall be paid out of the printing fund.

Sec. 8407. MIDWIFERY: All persons practicing midwifery in this state, and who have practiced it for ten years last preceding March 8, 1897, and desiring to continue the same shall on or before July 11, 1899, make application to the State Board of Medical Registration and Examination by submitting an affidavit, fully attested, giving the name, age, residence, the length of time during which, and the place or places at which the applicant has been engaged in such practice, and the special education, if any, which the applicant has received for such practice. Such application shall be accompanied by the affidavit of two freeholders, duly attested, that the applicant is known to them as the person applying for a certificate to practice midwifery, and that such applicant has been engaged in the active practice of midwifery, giving the location or locations of such practice for the last ten years previous to the passage of this Act. Upon such application and the payment of one dollar ($1) the State Board of Medical Registration and Examination shall issue to the applicant a certificate which shall, when presented to the county clerk, entitle the holder to a license to practice midwifery in this state. All persons desiring to enter into the practice of midwifery in this state after this law goes into effect shall present to the State Board of Medical Registration and Examination, their diplomas, duly attested, and procured from an obstetrical school of such standing as shall be recognized and determined by the board. Such applicant shall pay to said board the sum of five dollars ($5) at the time of making such application; or such applicant shall submit to an examination in midwifery as the board shall require and pay a fee of ten dollars ($10). Such evidence of qualification being satisfactory to the board it shall issue a certificate entitling the holder to a license from the clerk of the county in which the applicant resides, which license shall entitle the holder to practice midwifery in this state. The license thus issued shall conform to all requirements of registration imposed upon physicians' licenses in Section 2 of this Act and shall be subject to revocation for the same cause as provided in Section 5 in case of license and physicians.

Sec. 8408. EXEMPTIONS; RECIPROCITY; PRACTICE UNDER PRECEPTOR; VIOLATIONS: Nothing in this act shall be (so) construed as to discriminate against any school or system of medicine, or to prohibit gratuitous service in case of emergency, or to the administration of family remedies. This Act shall not apply to any commissioned officer of the United States Army, Navy or Marine Hospital Service in the discharge of his official duties; nor to any physician or surgeon who is legally qualified to practice in the state or territory in which he resides, when in actual consultation with a legal practitioner of this state; nor to any physician or surgeon residing on the border of a neighboring state and duly authorized to practice under the laws thereof, whose practice extends into the limits of this state; provided, that such practitioner shall not open an office or appoint a place to meet patients or receive calls within the limits of this state. This Act shall not be construed to prevent medical students from practicing medicine and surgery under the immediate and direct supervision of the licensed physician for a limited period of two years; provided, however, that the said student had not practiced medicine, surgery or obstetrics prior to the passage of this Act; in that event the amount of time said student has practiced medicine, surgery or obstetrics shall be deducted from said two years herein mentioned; and in no event shall the said student open an office or offer to engage in the practice of medicine, surgery or obstetrics. Any person violating any of the provisions of this section shall be deemed guilty of a misdemeanor, and on conviction thereof shall subject the offender to a fine of not less than twenty-five dollars ($25) nor more than two hundred dollars ($200).

Sec. 8409. DEFINITION: To open an office for such purpose, or to announce to the public in any way a readiness to practice medicine in any county of the state, or to prescribe for, or to give surgical assistance to, or to heal, cure or relieve, or to attempt to heal, cure or relieve those suffering from injury or deformity, or disease of mind or body, or to advertise, or to announce to the public in any manner a readiness or ability to heal, cure or relieve those who may be suffering from injury or deformity, or disease of mind or body, shall be to engage in the practice of medicine within the meaning of this act: Provided, That nothing in this act shall be construed to apply to or limit in any manner the manufacture, advertisement or sale of proprietary medicines. It shall also be regarded as practicing medicine within the meaning of this act, if any one shall use in connection with his or her name, the words or letters, "Dr.," "Doctor," "Professor," "M.D.," or "Healer," or any other title, word, letter or designation intending to imply or designate him or her as a practitioner of medicine or surgery in any of its branches: Provided, however, That this law shall be construed as applying only to those persons who pretend, claim, assert, or advertise that they diagnose, or in any manner physically treat human disease, injury or deformity, and shall not apply to those who endeavor to prevent or cure disease or suffering by spiritual means or prayer: and, Provided, That this law shall not be construed to prevent any person who now holds or may hereafter obtain and hold a lawful license to practice any profession, calling or vocation from practicing such profession, calling or vocation in accordance with the terms of such license: and, Provided, further, That this act shall not be construed to apply to non-itinerant optometrists who are at this time engaged in, or who may hereafter engage in the practice of optometry in this state, nor to professional or other nurses, nor first aid or pharmacists in their professional duties. The attorney-general, prosecuting attorney, the state board of medical registration and examination, or any citizen of any county where any person shall engage in the practice of medicine, as herein defined, without having first obtained a license so to do, may, in accordance with the laws of the State of Indiana governing injunctions, maintain an action in the name of the State of Indiana to enjoin such person from engaging in the practice of medicine, as herein defined, until a license to practice medicine be secured. And any person who has been so enjoined who shall violate such injunction shall be punished for contempt of court: Provided, That such injunction shall not relieve such person so practicing medicine without a license from a criminal prosecution therefor as is now provided by law, but such remedy by injunction shall be in addition to any remedy now provided for the criminal prosecution of such offender. In charging any person in a complaint for injunction, or in an affidavit, information or indictment, with a violation of this law by practicing medicine, surgery or obstetrics without a license, it shall be sufficient to charge that he did, upon a certain day and in a certain county, engage in the practice of medicine, he not having any license to so do, without averring any further or more particular facts concerning the same.

Sec. 8410. PENALTY: Any person who shall practice medicine, surgery or obstetrics in this state without having a license duly issued as hereinbefore provided shall be deemed guilty of a misdemeanor, and on conviction thereof shall be fined not less than twenty-five dollars ($25) nor more than two hundred dollars ($200).

Sec. 8411. OSTEOPATHY, LICENSE: The said board shall grant certificates which shall authorize the proper clerk to issue to the holder thereof a license to practice osteopathy, surgery and obstetrics, as hereinafter provided. Such certificate shall be issued on the same terms and conditions as others, except that the applicant therefor shall not be required to pass an examination in materia medica, nor shall the college from which he presents a diploma be required to conform to the standard fixed by the said board as to instructions in materia medica, but such college shall so conform in all other branches of instruction. The holder of such license when issued shall have the right to practice osteopathy, surgery and obstetrics and to administer anesthetics, antiseptics and narcotics. Any person practicing osteopathy in the State of Indiana under a license issued prior to the taking effect of this act, and who desires a license to practice osteopathy, surgery and obstetrics under the provision of this act may, upon application and the payment of one dollar, obtain a certificate from the state board of medical registration and examination that he is entitled to such license by presenting to said board the said license possessed by him at the time of the taking effect of this act together with an affidavit that he is the legal possessor of such license and is the person mentioned therein. Such certificate when presented to the clerk of the proper county shall entitle the holder thereof to a license to practice osteopathy, surgery and obstetrics and such license when issued shall entitle the holder thereof to all of the rights provided in this section.

Laws of 1927, Chapter 248

Section 1 (Amends Section 8409, which has been revised accordingly.)

Sec. 2. That within sixty days after this law goes into effect, it shall be the duty of the governor to appoint an additional member of the state board of medical registration and examination, which board shall thereafter consist of seven members, each of whom shall serve as now provided by law for a term of office of four years, and until his successor shall have been appointed and qualified. The additional member so appointed as well as the successor of such appointee, shall be a reputable practitioner of that system or method of healing not now represented on the Indiana state board of medical registration and examination which has the largest numerical representation of practitioners or members in the state, and shall be a graduate of a school or college teaching said system or method. All persons who are now practicing or may hereafter engage in the practice of chiropractic or any other method or system of healing in this state shall be subject in all respects whatsoever to all the provisions of an act entitled, "An act regulating the practice of medicine, surgery and obstetrics, providing for the issuing of licenses to practice, providing for the appointment of a state board of medical registration and examination and defining their duties, defining certain misdemeanors and providing penalties, and repealing all laws in conflict therewith and certain acts therein specified," approved March 8, 1897, and all acts amendatory thereof and supplemental thereto, except that applicants for license to practice chiropractic or any other system or method of healing in which drugs are not administered and which does not include surgery or obstetrics shall not be required to take an examination in materia medica, surgery and obstetrics: Provided, That any chiropractor or practitioner of any other system or method of healing, who is a graduate of a school or college teaching the system or method of healing which he practices, and who was on January 1, 1927, residing in the State of Indiana and practicing chiropractic or any other system or method of healing taught by the school or college of which he is a graduate, shall be given without examination a certificate for a license to practice the system or method of healing in which he has been so engaged.

Sec. 3. In case judgment is rendered in favor of the plaintiff in any action brought under the provisions of this act, the court rendering the same shall also render judgment for reasonable attorney's fees in such action in favor of the plaintiff and against the defendant therein, and when collected such fees shall be paid to the attorney or the attorneys of the plaintiff therein, which if paid to the attorney-general or any prosecuting attorney shall be additional to any compensation allowed by law.

Sec. 4. If any section, part of section, or part of this act should be declared unconstitutional it shall not affect the validity or force of any other section, part of section, or part of this act not declared to be unconstitutional.

MEDICAL PRACTICE ACT OF KANSAS

Revised Statutes of Kansas, 1923, chapters 65 and 74; as Amended 1925, chapter 204.

Section 74-1001. BOARD OF MEDICAL REGISTRATION AND EXAMINATION: Within sixty days after the passage of this Act, the governor, by and with the consent of the senate, shall appoint a State Board of Medical Registration and Examination, consisting of seven members, one to serve for one year, two for two years, two for three years, and two for four years, and the successors of each shall be appointed in the same manner for the term of four years who shall be physicians in good standing in their profession, and who shall have received the degree of doctor of medicine from some reputable medical college or university not less than six years prior to their appointment; representation to be given to the different schools of practice as nearly as possible in proportion to their numerical strength in this state, but no one school to have a majority of the whole board. Each member of the board shall take and subscribe the oath prescribed by law for state officers, which oath shall be filed with the secretary of state.

The board shall organize by the selection of a president and secretary from among their own number, each to serve for such term as the board may designate, not exceeding four years. It shall have a common seal and shall formulate rules to govern its actions. Its president and secretary shall have power to administer oaths pertaining to all matters related to the business of the board. The secretary shall furnish to said board a satisfactory bond, conditioned for the faithful performance of his official duties. Said board shall hold regular meetings on the second Tuesday in February, the third Tuesday in June and the second Tuesday in October of each year, and one other meeting, at such time and place as the board may designate, in such of the chief cities of the state as the board may designate. Five members shall constitute a quorum for the transaction of all business: but no license to practice medicine and surgery shall be issued by the board upon less than five affirmative votes when the full board is present, or upon less than a majority affirmative vote when less than full board is present. The board shall keep a record of all of its proceedings, and also a register of all applicants for license to practice medicine in all of its branches within the state, together with a record showing the age of the applicant, time spent in the study of medicine, and the name and location of the institution or institutions from which the applicant may have received degrees or certificates of medical instructions also, whether the applicant was licensed or rejected; said books and register shall be prima facie evidence of all matters recorded therein.

Sec. 74-1002. FEES AND MONEYS OF BOARD: The state treasurer and auditor of state shall credit ten per cent of all fees remitted into the state treasury by the State Board of Medical Registration and Examination in pursuance of Laws 1901, chapter 254, and all acts amendatory thereof or supplemental thereto, to the general revenue fund of the state to reimburse said fund for the expenses of printing, legal advice, auditing and handling of accounts and funds and all other general expenses which are paid out of the general revenue fund, but which are properly chargeable to the State Board of Medical Registration and Examination department; the remaining ninety per cent of said fees shall be by the state treasurer and auditor of state placed into a special fund to the credit of the said State Board of Medical Registration and Examination fee fund.

Sec. 74-1003. FEE FUND: The auditor of state is hereby authorized to draw his warrants on the treasurer of state against said State Board of Medical Registration and Examination fee fund upon duly itemized and verified vouchers approved by the president and secretary of said board for the purposes specified and provided by law, but in no event shall the total expenses of the said board exceed the total fees collected and deposited to the credit of said fund.

. . . .

Sec. 65-1001. EXAMINATION AND LICENSING OF PHYSICIANS: All persons intending to practice medicine or surgery after the passage of this Act, and all persons who shall not have complied with section 74-1002 of this Act, shall apply to said board at any regular meeting, or at any other time or place as may be designated by the board for a license. Application shall be made in writing and shall be accompanied by the fee hereinafter specified, together with the age and residence of the applicant, proof that he is of good moral character and satisfactory evidence that he has devoted not less than three periods of six months each, no two within the same twelve months, or if after April 1, 1902, four periods of not less than six months each, no two within the same twelve months, to the study of medicine and surgery. All such applicants, except as hereinafter provided, shall submit to an examination of a character to test their qualifications as practitioners of medicine or surgery, and which shall embrace all those topics and subjects a knowledge of which is generally required by reputable medical colleges of the United States for the degree of doctor of medicine: Provided, That the examination in materia medica and therapeutics and in the theory and practice of medicine shall be conducted by those members only of the board who are of the same school of practice as the applicant claims to follow: Provided, further, That graduates of legally chartered medical institutions of the United States or foreign countries in good standing, as determined by the board, may be, at the discretion of the board, granted a license without examination: Provided, further, That the board may in its discretion accept, in lieu of examination or diploma, the certificate of the board of registration and examination of any other state or territory of the United States or any foreign country whose standards or qualification for practice are equivalent to those of this state: Provided, That a temporary certificate may be issued to any student of medicine or practitioner of medicine who is not qualified under the law, upon the written request of a majority of the practitioners of medicine under this act in the county in which he desires to practice; or, if there be no practitioners registered under this act in any county in this state, the board shall issue a temporary permit as above described upon the application of the board of county commissioners of said county. The board may refuse to grant a certificate to any person guilty of felony or gross immorality or addicted to the liquor or drug habit to such a degree as to render him unfit to practice medicine or surgery, and may, after notice and hearing, revoke the certificate for like cause.

Sec. 65-1002. ISSUANCE OF LICENSE AT TIME OF PASSAGE OF ACT: All persons engaged in the practice of medicine on the date of the passage of this Act shall, within four months from the date of such passage, apply to the Board of Registration and Examination for a license to practice. To all such as present the following qualifications the board shall issue a license on payment of fee hereinafter specified. If a graduate in medicine or surgery, he shall either personally or by letter or proxy present his diploma to the State Board of Medical Registration and Examination for verification. Accompanying such diploma the applicant shall file his affidavit, duly attested, stating that the applicant is the person named in the diploma and is the lawful possessor of the same, and giving his age and time spent in the study of medicine. If the board shall find the diploma to be genuine, and from a legally chartered medical institution in good standing as determined by the board, and the person named therein be the person holding and presenting the same, the board shall issue its certificate to that effect, signed by its president and secretary, which, when left for record with the county clerk of the county in which said applicant practices, as hereinafter required, shall be conclusive evidence that its owner is entitled to practice medicine and surgery in this state. If a practitioner of medicine, in Kansas, at the time of the passage of this Act, but not a graduate of medicine or surgery as above defined, he shall either personally or by letter or proxy, furnish the board affidavits duly attested, stating the period during which, and the places at which, he has been engaged in the practice of medicine and surgery. If the board is satisfied from the affidavit and other information received that the applicant was a resident engaged continuously in the practice of medicine in the state of Kansas for seven years prior to the passage of this Act, it shall issue its certificate to that effect, which when left for record with the county clerk of the county in which he resides shall be conclusive evidence that its owner is entitled to practice medicine and surgery in this state. If engaged in the practice of medicine in this state at the time of the passage of this Act for a less period than seven years, prior to the passage of this Act, and not a graduate in medicine or surgery as above defined, the applicant shall present himself before the board and submit to such examination as to his qualifications for the practice of medicine and surgery as the board may require. If the applicant passes the examination satisfactorily to the board the board shall issue its certificate to that effect, which, when left for record with the county clerk of the county in which he resides shall entitle its holder to practice medicine or surgery in this state. The board may refuse to grant a certificate to any person guilty of a felony or gross immorality or addicted to the liquor or drug habit to such a degree as to render him unfit to practice medicine or surgery and may, after notice and hearing, revoke the certificate for like cause.

Sec. 65-1003. LICENSE CERTIFICATE: Upon the completion of the examination or the acceptance of the diploma or certificate as herein provided, the said board shall, if it finds the applicant qualified, grant and issue a certificate to said applicant to practice medicine and surgery within this state, and which will be signed by the president and secretary, and attested by the seal of the board. Within thirty days of the date of any certificate of license having been granted and issued by the board, the owner thereof shall have it recorded as hereinafter provided in the office of the clerk of the county in which he resides, or, if a nonresident of the state, then of the county in which he has an office or intends to practice, and the date of recording shall be endorsed thereon; and until such certificate of license is recorded he shall not exercise any of the rights or privileges therein conferred. The county clerk shall keep in a book for that purpose a complete list of the certificates recorded by him, which book shall be open to public inspection during business hours. Between the first and twentieth days of December in each year, the county clerk shall furnish the secretary of the board a list of all certificates recorded and in force, and also a list of all certificates which have been revoked or the owners of which have removed from the county or died during the year. The fee for the recording and reporting of such certificates shall not exceed one dollar ($1).

Sec. 65-1004. FEES AND SALARIES; REPORTS: The fee for examination shall be fixed by the board, but shall not exceed fifteen dollars ($15). The fee for examination of diploma or certificate from an examining board of another state shall also be fixed by the board, but shall not exceed ten dollars ($10). All moneys received by the board shall be paid by the secretary thereof into the state treasury monthly. The compensation and actual traveling and other expenses of the board shall be paid from the treasury of the state: Provided, That the total amount paid from the state treasury under the provisions of this Act shall not exceed the amount paid into the treasury as herein provided. The compensation of the members of the board shall be six dollars ($6) for every day actually spent in the discharge of their duties. In addition to his actual traveling expenses, the secretary shall receive a salary to be fixed by the board, but it shall not exceed eight hundred dollars ($800) per annum. All such compensation and traveling expenses shall be approved by the president and secretary of the board. It shall be the duty of said board to make a report of their proceedings to the governor annually, on or before the 15th day of November, which report shall include an account of all moneys received and disbursed by them.

Sec. 65-1005. PERSONS DEEMED PRACTITIONERS; RELIGIOUS BELIEFS; PERSONS NOT SUBJECT TO ACT; OPTICIANS: Any person shall be regarded as practicing medicine and surgery within the meaning of this Act who shall prescribe, or who shall recommend for a fee, for like use, any drug or medicine, or perform any surgical operation of whatsoever nature for the cure or relief of any wounds, fracture or bodily injury, infirmity or disease of another person, or who shall use the words or letters "Dr.," "Doctor," "M.D.," or any other title, in connection with his name, which in any way represents him as engaged in the practice of medicine or surgery, or any person attempting to treat the sick or others afflicted with bodily or mental infirmities, or any person representing or advertising himself by any means or through any medium whatsoever or in any manner whatsoever so as to indicate that he is authorized to or does practice medicine or surgery in this state, or that he is authorized to or does treat the sick or others afflicted with bodily infirmities, but nothing in this act shall be construed as interfering with any religious beliefs in the treatment of diseases; Provided, That quarantine regulations relating to contagious diseases are not infringed upon. This Act shall not apply to any registered osteopathic physician or any chiropractic practitioners of the state of Kansas, or any commissioned medical officer of the United States Army, Navy or Marine Service in the discharge of his official duties; nor to any legally qualified dentist, when engaged in the legitimate practice of his profession; nor to any physician or surgeon who is called from another state or territory in consultation with a licensed physician of this state, or to treat a particular case in conjunction with a licensed practitioner of this state, and who does not otherwise practice in the state. Nor shall anything in this Act apply to the administration of domestic medicines, nor to prohibit gratuitous services: Provided, Any person holding a diploma issued by an optical college, and who has studied anatomy of the eye and contiguous parts, human physiology and natural philosophy for at least six months under a competent teacher, and who shall pass examination satisfactorily to the State Board of Medical Registration and Examination shall be eligible to register as an "Optician" or "Doctor of Optics" and shall be otherwise governed by this Act so far as the same is applicable.

Sec. 65-1006. UNLICENSED PRACTITIONERS: From and after the first day of September, 1901, any person who shall practice medicine and surgery in the state of Kansas without having received and had recorded a certificate under the provisions of this Act, or any person violating any of the provisions of this Act shall be deemed guilty of a misdemeanor, and upon conviction thereof shall pay a fine of not less than fifty dollars ($50) nor more than two hundred dollars ($200) for each offense; and in no case wherein this Act shall have been violated shall any person so violating receive compensation for services rendered. It shall be the duty of the secretary of the State Board of Registration and Examination to see that this Act is enforced.

Sec. 65-1007. FALSE SWEARING: Any person who shall swear falsely in any affidavit or oral testimony made or given by virtue of the provisions of this Act or the regulations of said board of registration shall be deemed guilty of perjury.

Sec. 65-1008. TEMPORARY PERMIT TO PRACTICE MEDICINE. That the secretary of the State Board of Medical Registration and Examination may in his discretion issue a temporary permit to practice medicine or surgery to any person who shall have made application in writing to said board for license to practice, accompanied by the prescribed fee, and proof as required by section 3 of chapter 254 of the Session Laws of 1901, and who shall be a graduate of any legally chartered medical institution of the United States or any foreign country; or such permit may be so issued to any such applicant for license, complying with said conditions, who is shown to have been licensed by the board of registration and examination in any other state or territory of the United States or any foreign country whose standards of qualification for practice are equivalent to those of this state. Any such temporary permit so issued shall, when recorded in the office of the county clerk in the county in which he resides, authorize the person receiving the same to practice medicine or surgery in the same manner as a permanent license up to the commencement of the next regular meeting of the State Board of Medical Registration and Examination following the date of issue when such permit shall expire: Provided, That neither the said board nor the secretary thereof shall have power to issue more than one temporary permit to any one person, nor to extend any such permit beyond the time herein limited.

Sec. 65-1009. OFFICE OF REGISTRATION BOARD. That on the first day of June, 1909, the Executive Council of the state house shall assign and suitably furnish a room in the Kansas state house for the use of the State Board of Medical Registration and Examination, and that on and after that date said board shall keep and maintain the office of its secretary, with all its books and records, in such room.
